METTLER TOLEDO

Highest Flexibility in Light Wet & Humid Environments

The ICS226 Compact Scale is an ideal portable scale solution for weighing and portioning in food production and packaging applications. This full stainless steel scale is IP65/IP67 protected and a good fit in any light wash down application with a need for ruggedness and durability.

This scale is designed for efficient out-of-the-box simple weighing applications and optimized for easy and fast checkweighing. Its large, intuitive and

fast LCD-display with an excellent visible checkweighing indicator speeds up production and helps to prevent manual operation errors.

The ICS226 Compact Scale is available in two basic versions: front or rear mounting, a together with its duplicated Zero/Tare keys grants for ergonomic handling and operation at any time.

Technical Specifications

Display	6 digit LCD, with white backlight Heights 30mm
Readability	3,000 d (factory setting) / 6,000 d / 7,500 d
Power Supply	100 ~ 240 VAC 6V Ni-MH rechargeable battery 3800mAh
Ingress Protection	IP65/IP67
Material	Scale: Stainless steel, AISI304 Load cell: Stainless steel potted
Applications/Features	Simple weighing, Checkweighing, Unit switch
Platform Size	228 x 228 mm

Good Readability

The ICS226 Compact Scale provides a large and excellent visible LCD-Display and an intuitive graphic checkweighing indicator for outstanding readability.

Unique, Ergonomic and Rugged Keypad Design

The high quality membrane keys and the duplicated Zero/Tare buttons grant a long life time and allow for user adapted handling of the terminal.

Highest Manufacturing Flexibility

Removable handles and the high quality Ni-MH rechargeable battery make the ICS226 a fully portable and mobile scale for flexible operation everywhere in the facility.

Stainless Steel Load Cell

The advanced and state of the art technology makes this load cell a perfect choice for light wash down applications.

Workplace Oriented

The two available basic scale set-ups – front and rear mounting – allow to optimal adjust the scale to given application requirements and workplace surroundings.
