00 Z 20271.9

Adjustable LED display

- LED display won't be misty even in the damp environment.
- LED brightness can be adjusted, which will help to relieve the eye tiredness and save power.

Easy to clean

Sufficient space between the platter and the up cover makes the scale easy to clean.

Dual choice for light or deep color according to customers' needs.

Cub Damp-proof Scale

- Cub scale is specially designed for the damp environment. The uniquely processed main PCB and smart mechanical design prove the damp-proof feature. The high updating display speed, less than 1 second, significantly improves your efficiency.
- The adjustable LED display will also relieve your eye tiredness and save power during the long time operation.
